Jobs

"People are good at emotive capability, communication, improvisation, generalization… Machines are good at memorization, transactions, prediction…
what happens when you combine those two, what's that middle ground of collaboration?"

–Paul R. Daugherty and H. James Wilson

@twpiggott

Hi, I'm Woebot.

I'm here for you, 24/7. No couches, no meds, no childhood stuff. Just strategies to improve your mood. Plus the occasional dorky joke. 😉
